2005 - What we planned to do...

In the YP meeting in India, we came up with a list of things to do for 2005. This is what the YP team planed to complete in 2005.

- Create a website for introduction with a young flavour
- Create a materials website to list poster, invites, music, slide shows, pictures, newsletters, hand outs. This will show the sample and will be in downloadable format. This is currently being developed www.coolchill.org
- Create materials that are suitable for YP events (for example: videos with a young voice over for introduction and with new faster music)
- Create music and quotes videos
- Focus on the University events, working with local communities where there are no yps, and help them organize events in Universities. We will visit the city for couple of days and promote and MC the event. The event is organized by local team and materials are supplied by yps.

2006 - What we plan to do...
